Enjoyable game. Yes, it does start to get repetitive after about 12 or so hours but the game has a very good story, soundtrack, and gameplay at the start. The story is affected in many ways by your actions. I would suggest buying this when it goes on sale rather than full price.. This game is quite poor. There isn't as much to it as it promises. The speed at the highest level is too slow. The gameplay isn't immersive, and therefore I think the price is too high. You can find mobile games for a 10th of the price that are much better, with better graphics, and have clearly had much more time spent on them.. Looking pretty good already! Have some trouble trying to get my digital drumkit (KAT KT3) to work on it, so I hope a future update will bring midi support. I also think the graphics could be a lot sleeker, some people might find the interface too cartoony.

I did play around on it, and the sounds are pretty good! I'd even say close to professional VSTI's like Superior Drummer and EZ Drummer.. This game is simple but enjoyable. You build your own class and has its own unique touches.. Last time, i said that i chose not to ride level 14 costers due to my hands getting rekt.

Well now, some coster decided that it would go even further beyond as a 15!

.....

I am going to ride it!

(one ride later)

What a ride it w-OH MY GAUD WHERE MOI HANDS GO?!?!?! CRANKY KONG BLASTED MOI HANDS!!!. I can't recommend this DLC as the speed limits are hopelessly inaccurate or missing altogether mening you lose all of your XP very quickly. The Oktoberfest scenario which is supposed to run from Wedel to Hamburg HBF ends at the fourth station Blankenese about ten stations short. It's typical Dovetail Games - unfinished and on with the next moneyspinner.. This game is a great time passer. it is absolutely stupid lol. but allot of fun.

Pro's

-animation

-music

-the real lols

cons

-short

-small content/gets repetitive. I love this new and unique idea for a game. 9/10 Would bomb again.. I just started playing this gem. I got some unresponsiveness during fights (randomly) but I really don't care about it.

I see there is a lot of birlliant work in this and I like it very much. I can't recommend it enough it you are into RPGMaker games.. This is a fun , addictive and simple arcade game that is very similar to hang-on . The gameplay consitsts of moving the bike left or right and pressing the up and down arrows in order to shift gears like in outrun. The level design is nice with varying levels of difficulty and objects to block your path from other bikes on the road to trucks and the sides of buildings. There is an android and ios version which plays no different from the PC version and if you own both a computer and a mobile phone which most people do in this day and age I would seuggest peiking up both in order to support the developer this is a great game and I recommend it to all

I don't often go out of my way to review games but this was a gem. Engaging story, great voice acting and beautiful visuals. The controls were a little wonky in places with turning but that was minor compared to the positives. I think the only real negative was that the game took less than 5 hours to finish. I really wanted more and would definitely recommend this game to any fan of the genre.. Phenomenal, beautiful, and powerful.

If you enjoy quiet exploration and puzzle games that rely heavily on visuals and music to tell a story, you will enjoy this.. This is what all VR games need to be. I only wish this game was longer. This is the game I usually introduce my friends to the first time they are putting on the VR headset.. In Rubber Ducky, you play *as* Rubber Ducky. Watch out for the spikey squares, they ♥♥♥♥ed my wife.

But no seriously, the game's pretty fun, pretty tough, and it made my finger fall off. 7/10. crashes continually. better than csgo. Love this game. Bought 'em all :)
