Rural India and Its Diversity Most of the towns in the hills of Himachal Pradesh are ‘inhabited’ by people who live in India’s remotest and least accessible areas. The villages are not accessible by roads and the typical travel route is to travel by train. Therefore, a lot of them are small hamlets that are little more than a cluster of houses. Unlike many of the bigger villages, the smaller ones may be inhabited by three to ten families. This also means that they are not very well connected to the outside world. Hence, most of the surrounding villages and towns have very little contact with them. However, this also allows them to be more independent and self-sufficient. Often times, they develop their own traditions and are left to go about their own way, uninfluenced by what goes on in the rest of the country. The Mountain States – A Brief History of Himachal Pradesh Before the British, no one really knew about the beautiful state of Himachal Pradesh. As mentioned, the state was relatively unknown and was only thought of by some of the ancient regions in India. The British first came to the region in the 1770s and it was not until the 1820s that it became an official state of the British empire. However, the story of Himachal Pradesh really starts with a mass migration. When the British moved to India, they encountered many people who were moving from one state to another. Many people were leaving one state and moving to another, especially to the lowlands of Bengal. Most of the people who went to Himachal were people who had family there. They had relatives and friends living there and it was easier for them to take care of them there. Despite the fact that the state was not always very well known, many people did migrate there and they mostly settled down. These new 82157476af
